Rippl How to use the app

1. Download Rippl

You can download the app from the Google Play Store and the Apple Store. Search for: **Rippl: Privacy-first Check-in.**

2. Check In

Use the Rippl app on your smartphone to scan the QR code as you enter the venue.

3. Show Staff

Please show staff you are checked in on your app, if asked. Some businesses, such as restaurants cafes and bars, may ask you to show you've checked before entering.

4. Check Out

When you're ready to leave, use the app to "Check Out". You must check out before you can check in at another business.

5. Alerts

If Health Services need to contact people who have visited a place or business at a particular time, and this includes you, your phone will receive an alert from the app. The alert will tell you what you need to do next.
